August 4 & 5

Grapevine Bass Anglers 2007

The heat is on! After a milder than normal summer, August has arrived and so has the heat. Sunny skies, high temps and humidity turned the weekend into a sweat-fest. Water temps hovered in the low 90's and the winds were light. We had another great turnout with 21 anglers converging on Cypress Springs and bringing 111 fish to the scales with a combined weight of almost 164 lbs. Depending on who you talked to at weigh-in on Saturday, fishing varied from extremely good to extremely poor. Some anglers struggled to find a consistent bite whereas others reported catching 20-25 bass per angler. A wide assortment of lures produced bites, although the topwater bite seemed to be off by most accounts. Various crankbaits (diving and lipless) along with soft plastics (particularly shakey heads and drop shots) took center stage for the majority of the fish caught. The predominant depth for consistent action was in the 7-12 ft range with points and tanks dams being the primary targets along with scattered brush and/or stumps.

Here are the results of the Lake Cypress Springs tournament. Congratulations to the following anglers:
