**Grapevine Bass Anglers 2007**

Eighteen anglers converged on Lake Cedar Creek this past weekend for a late Summer / early Fall tournament. It's been several years since we last visited this lake and there were lots of questions surrounding what the prevailing patterns would be. Based upon the final results, the overall bite was tough for everyone. After two days of hard fishing, only 2 limits were brought to the scales, both of them on Saturday. Although the average weight of bass weighed was good, 2.34 lb each, the total number of fish brought to the scales was low, at 39 fish. The early morning provided some topwater action, while an assortment of plastics, both Texas rigged and finessed (drop shot and shaky heads) provided most of the action. Crankbaits also played a key role for some anglers. With shorter days and cooler nights continuing, causing lake temps to decline, the fishing should only get better at our next event. With just 3 tournaments remaining, the final push for the Top 6 and Top 10 are really heating up.

Here are the results of the Lake Cedar Creek tournament. Congratulations to the following anglers:
